Professional Development Center > Community Engagement

Community Engagement

As part of community engagement initiatives; the Professional Development Center provides services to local organizations as part of the University's social responsibility towards the community outside the university.

According to the Professional Development Center (PDC); Community Engagement in higher education is defined as sustained networks, collaborations, communication media, and activities between Higher Education Institutions and communities at the local, national, regional, and international levels.

Establishing contacts, collaborative initiatives, business ventures, co-sponsored meetings, conferences, sporting events, research projects, and other activities are all examples of community engagement initiatives.
